SAT CHITT ANAND

“ I want to pass on
specific technology to you.
You can call it Akshayaananda अक्षयानंद.
Joy that cannot be diminished.”

Having more stably joyful people in the world instead of stably sorrowful people improves everyone's quality of life too.

Human intelligence grows when people are joyful. So we can expect people to innovate positively without stress.

Things innovated in stress always end up in stress - like weapons, radio signals, etc.

This not only leads to a low quality life but also a brief human experience, things innovated in stress often have very toxic side effects that kill people younger.

In addition to that, when you give the body or mind too much stress, both body and mind want to exit this human existence and start destroying themselves.

They will want a divorce from you. So the body might get cancer and the mind might get a mental disease and both will decay and cease to exist.

This is how most people die.

People don't have the technology for stable joy, even if they are rich and healthy. And whenever they have joy they are scared to lose joy and become unjoyful thinking about losing joy.

When I was working in advertising my mentors always told me to target pain rather than joy.

They told me joy isn't believable or achievable but pain is real and can be felt.

What an era we have been through!

Let's end it now.

This technology works like farming mangoes.

You need a mango seed, you need a process of sprouting the seed to a seedling and a seedling to a mature tree, you need a suitable environment with the right soil nutrients and pH, you need sunlight and rain and pollinating insects and you will certainly get sweet fruits.

It's the same for farming sweet Ananda or joy.

The seed is Satya which is truthful relationships, it's sown in the right environment which is Shuddh Chitt or pure awareness.

And the process is Shiva Dhyana, Mantra, Prayoga and Puja.

And the result is Akshaya Ananda.

Stable and sweet joy that cannot be diminished.

Such people make more joy in the world.

Do more punya or good deeds and destroy paapa or sins of humanity.

Such people are in a state of Sat-Chitt-Anand truth-awareness-joy.

It's a supremely evolved superhuman state of being.

What am I teaching

Nothing extraordinary, just Shiva
Dhyana, Mantra, Prayoga and Pooja.

But everyone does it with
an ashuddh chitt.

You will get instructions on
how to do it with shuddh chitt.

So it's not a course, it's Guru Anugraha
and deeksha, Guru's Grace and gifts.

I am taking away your burden of
karma, paapa, dosha and shaapa -
all the negative tendencies that
dull your awareness and make you
bet on lies rather than invest in truth.

“You'll not
fear dukha
or suffering
and pain
again.”

An Invitation of a Lifetime

What are we teaching?

This Programme is a direct Deeksha into Shiv Pooja from our lineage.

At surface, this sounds nothing extraordinary. But the catch is - everyone does shiv bhakti with an ashuddh chitt (impure chitt).

In this programme you will get guidance on how to do Shiv Pooja with a shuddh chitt.

Hence one cannot call this a course really, it's Guru Anugraha - which means - Guru is taking away your burden of karma.

Since this is a direct deeksha to you by Dattatreya Maharishi Guru Pashupati Baba, the Parampara Adhikari of Trilok Akhada.

If you are able to complete this programme, you will become a part of our lineage -
The Shiva Khadga
